### ITIL® v3 Service Operation Lifecycle Course

الرفة التجارية الصناعية بحد  
JEDDAH CHAMBER OF COMMERCE & INDUSTRY

### Course Description:

This 3-day course immerses learners in the overall concepts, processes, policies and methods associated with the Service Operation phase of the Service Lifecycle. The course covers the management and control of the activities and techniques within the Service Operation stage, but not the detail of each of the supporting processes. This course is designed using an engaging scenario-based approach to learning the core disciplines of the ITIL best practice and positions the student to successfully complete the associated exam.

### Audience:

The Service Operation Lifecycle course will be of interest to:

- Individuals who have their ITIL v3 Foundation Certificate (or the ITIL v2 Foundation + v3 Foundation Bridge certificate) who want to pursue the intermediate and advanced level ITIL certifications.
- Individuals who require understanding of the ITIL Service Operation phase of the ITIL core lifecycle and how it may be implemented to enhance the quality of IT service provision within an organization.
- IT professionals working in or new to a Service Operation environment and requiring a detailed understanding of the concepts, processes, functions and activities involved.
- Individuals seeking the ITIL Expert certification in IT Service Management for which this qualification is one of the prerequisite modules
- Individuals seeking progress towards the ITIL Master in IT Service Management for which the ITIL Expert is a prerequisite
- A typical role includes (but is not restricted to): CIOs, CTOs, managers, supervisory staff, team leaders, designers, architects, planners, IT consultants, IT audit managers, IT security managers and ITSM trainers involved in the ongoing management, coordination and integration of operation activities within the Service Lifecycle.

### Learning Objectives:

Upon completion of this course and examination, the learner will gain competencies in:

- Understanding Service Management as a Practice and Service Operation principles, purpose and objective
- Understanding how all Service Operation processes interact with other Service Lifecycle processes
- The subprocesses, activities, methods and functions used in each of the Service Operation processes
- The roles and responsibilities within Service Operation and the activities and functions to achieve operational excellence
- How to measure Service Operation performance
- Understanding technology and implementation requirements in support of Service Operation
- The challenges, critical success factors and risks related with Service Operation

### Course Organizational Logistics:

- A maximum of 12 people can attend this course with 1 instructor
- Classroom with U-shaped seating arrangement
- 2 break out rooms where available
- Whiteboard, flipchart, projector
- Previous ITIL Certificate numbers need to be provided prior to the start of the course
- Course runs 08:00 – 5:00 each day – the exam can be schedule from 3:30 – 5:00 on the last day

### Prerequisites:

Candidates for this course must:

- Hold an ITIL v3 Foundation Certificate or ITIL v2 Foundation + v3 Foundation Bridge Certificate
- There is no minimum requirement but a basic IT literacy and around 2 years IT experience are highly desirable

### Course Student Material:

- Students receive a copy of the classroom presentation material, practice exam, case study, homework and assignments.
- ITIL best practice core books are available as electronic .pdf, printed book and online subscription versions.
